Summary

Croatia regularly reports hate crime data to ODIHR.

Since 2006, Croatia has implemented ODIHR's Law Enforcement Outreach Programme (LEOP) followed by the updated Training Against Hate Crime for Law Enforcement (TAHCLE) programme.

In 2021, the government adopted an updated inter-agency "Protocol for Procedure in Cases of Hate Crime", establishing state authorities' responsibilities in addressing hate crime and revised the responsibilities of the dedicated Working Group for monitoring hate crimes. In 2021, the Working Group participated in ODIHR's diagnostic workshop to assess national structures and services for hate crime victim support, resulting in a set of ODIHR recommendations to the relevant state authorities. Data on hate crimes are regularly published by the Office for Human Rights and the Rights of National Minorities (OHRRNM).

National Developments

The Office for Human Rights and the Rights of National Minorities, together with the Judicial Academy, carried out set of hate crimes workshops for members of the judiciary, police, prosecuting authorities and civil society organizations. During the workshops, participants studied the relevant case of the European Court of Human Rights, notably *Šečić v. Croatia and Škorjanec v. Croatia*, as well as *Balázs v. Hungary*, *Grigoryan and Sergeyeva v. Ukraine*, *Milanović v. Serbia*, *Nachova and Others v. Bulgaria*, among others. In 2019, a second round of workshops were carried out for 109 participants. In order to improve the hate crime data collection system, the Working Group on the Drafting of the Protocol on Hate Crime began drafting a New Protocol, which should be adopted by the end of 2020. The New Protocol on Hate Crime aims to ensure the collection of relevant statistical data, while also: defining the obligations of individual institutions dealing with hate crime; determining the responsibilities of the competent authorities involved in detecting, treating and monitoring the results of procedures conducted in hate crime cases; and defining specific forms for statistical collecting data on hate crime cases.
