Summary

France regularly reports hate crime data to ODIHR. Since 2012, DILCRAH has served as an inter-ministerial body and platform for co-operation to address hate crime, including through research and financial support to civil society organizations (CSOs). DILCRAH has worked with CSOs to train police and create a network of specialized investigators on hate crime. The Central Office for Combating Crimes against Humanity and Hate Crimes (OCLCH) is an inter-agency body composed of police officers and gendarmes that is mandated to expedite hate crime investigations and monitor and analyse relevant developments. Hate crime data are regularly published by the National Institution for Human Rights. France conducts regular surveys on hate crime victimization to measure unreported hate crimes.
